EXP 4: Data modelling and form design for a business application in Zoho Creator.

4b: Student Admission Enquiry Form (Advanced) — Advanced Fields Use Case

AIM:

To extend the **Student Admission Enquiry Management** application in **Zoho Creator** by incorporating all the required **Advanced Fields** into the existing **Admission_Enquiry_Form**. The enhanced application is designed to support advanced admission processes such as **school verification, sibling information management, application fee calculation, scholarship or sibling-based concessions, file and media uploads, automatic enquiry ID generation, QR code generation, and structured data lookup**. The system also extends the **Admission_Enquiry_Report** to display computed fees, enquiry IDs, QR codes, and other advanced enquiry details for effective tracking and follow-up.

THEORY:

Zoho Creator is a cloud-based low-code application development platform that enables users to create applications using forms, reports, workflows, automation, and databases. While Basic Fields are mainly used to collect standard information such as names, phone numbers, email addresses, and dates, **Advanced Fields** provide additional functionality for managing complex data relationships, calculations, automation, files, media, and system-generated information.

In the **Student Admission Enquiry Management (Advanced Edition)** application, the existing **Admission_Enquiry_Form** is extended by adding Advanced Fields to satisfy real-world requirements of a college admissions office.

PROCEDURE:

Step 1: Applicant completes the existing basic-field sections (personal, contact, and guardian/academic details).

• **Step 2:** Applicant selects their previous school using the School Name Lookup field, which auto-fills the board affiliation.

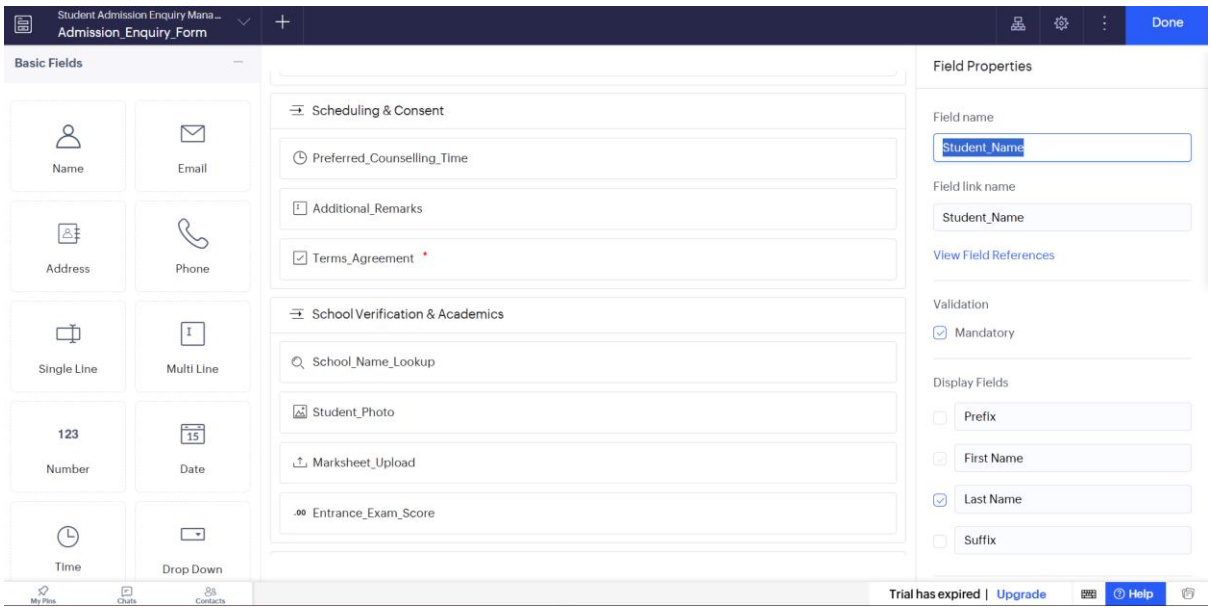

Step 3: If siblings are also studying or applying, their details are added as rows in the Sibling Details SubForm.

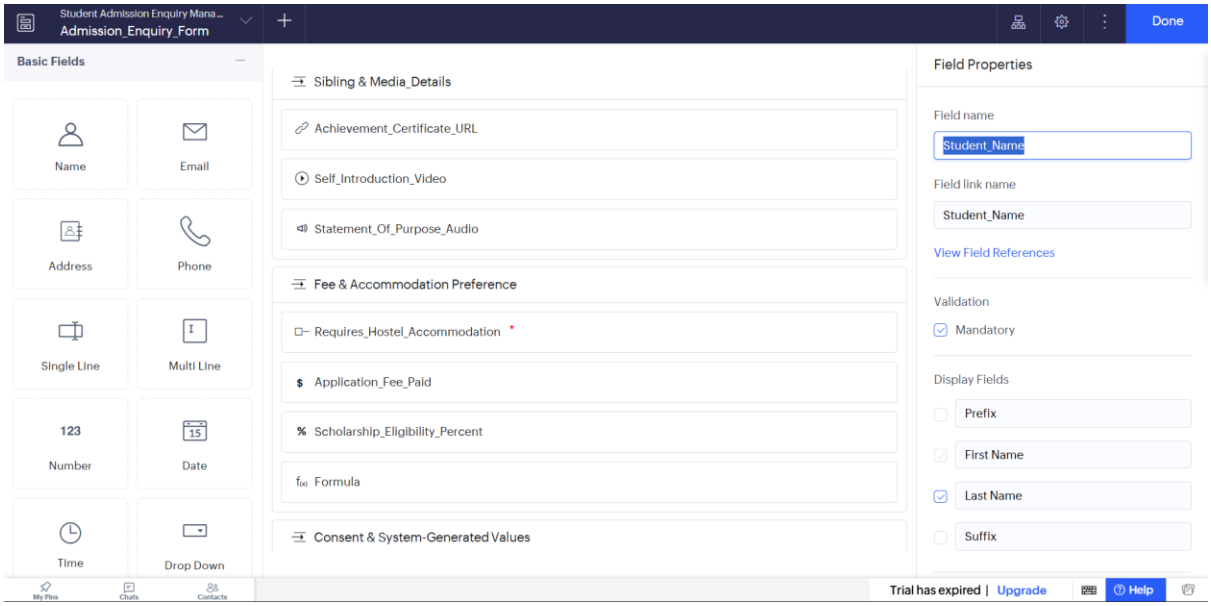

Step 4: Applicant uploads their mark sheets and optionally a self-introduction video and a statement-of-purpose audio clip.

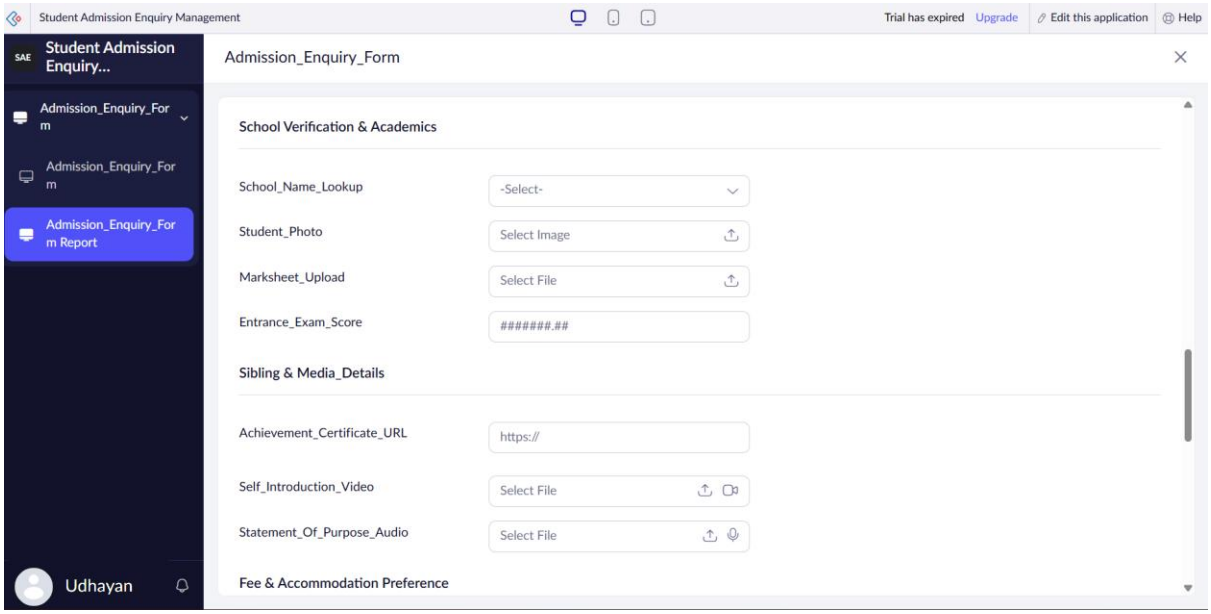

Step 5: Applicant indicates whether hostel accommodation is required, and the Application Fee Paid, Scholarship Eligibility, and computed Net Application Fee Payable are displayed.

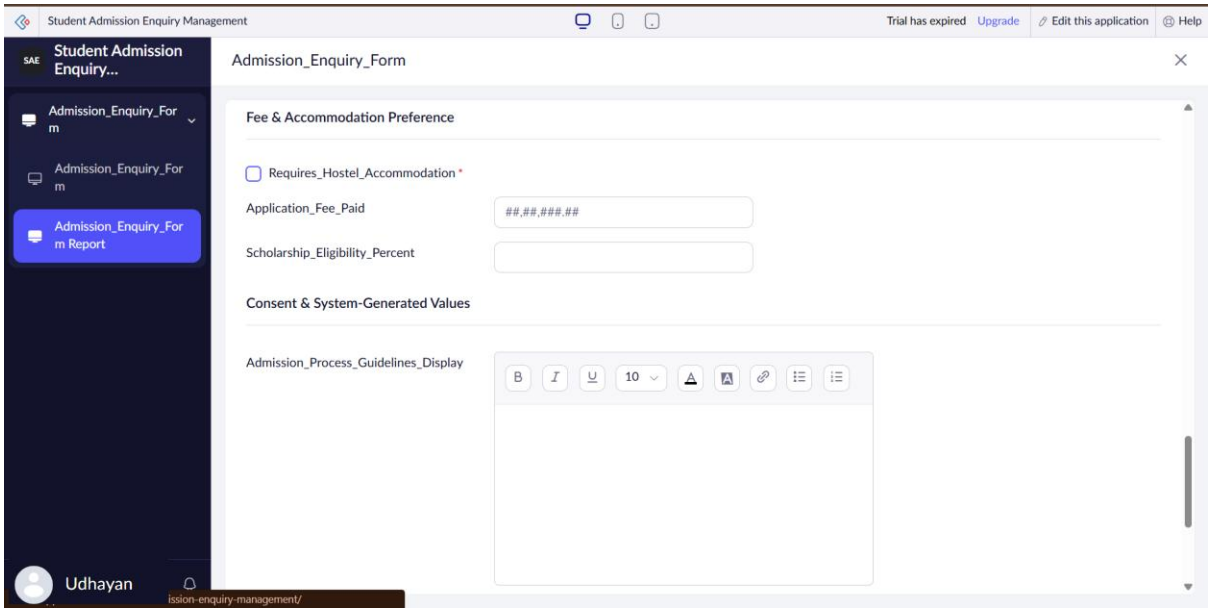

Step 6: Parent/Guardian reviews the Admission Process Guidelines rich text block and provides their Digital Signature to consent to the process.

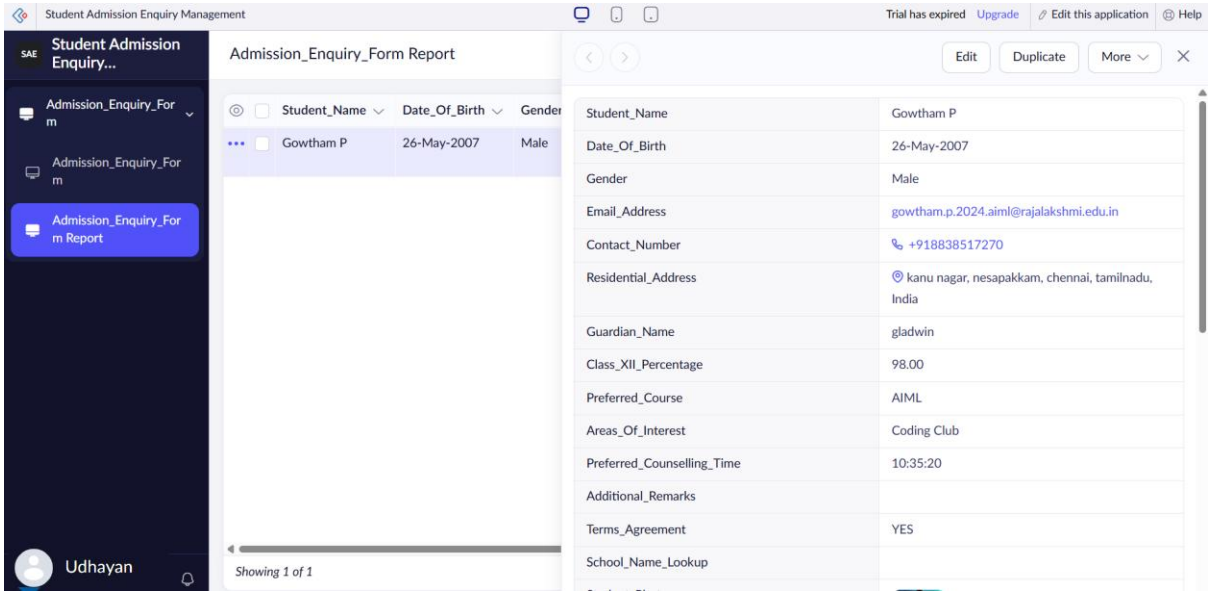

Step 7: On Submit, Zoho Creator auto-generates the Admission Enquiry ID, timestamps the Enquiry Submitted On field, and generates the Admission Enquiry QR Code.
